STRUCTURE AND SYLLABUS

B.Com. Honours / Honours with Research

Under Choice Based Credit System (CBCS) and as per NEP-2020 Guidelines

[w.e.f. Academic Year: 2023-24]

Preface

The Bachelor of Commerce (B. Com) program equips students with essential knowledge and skills in Accountancy and Costing as well as Business Management. Aligned with the National Education Policy (NEP), this program fosters holistic development and nurtures intellectual growth. In today's dynamic global economy, there is a growing demand for skilled professionals in Accountancy, Costing, and Business Management. The B. Com program offers specialized majors in these fields, allowing students to choose their desired path based on their interests and aspirations.

The Accountancy and Costing major provides a comprehensive understanding of financial reporting, auditing, taxation, and cost accounting. Students develop skills to analyse financial statements and make informed decisions, while efficiently managing costs, budgets, and pricing strategies.

The Business Management major focuses on strategic planning, organizational behaviour, marketing, human resource management, and entrepreneurship. Students gain knowledge and skills to navigate the business world, lead teams, make sound managerial decisions, and adapt to changing market dynamics.

The B. Com program combines theoretical foundations with practical applications, fostering critical thinking, problem-solving, effective communication, and ethical decision-making. Students engage in real-world case studies, projects, industry visits, and internships, gaining valuable experiential learning opportunities. A supportive and inclusive learning environment promotes student participation in co-curricular and extra-curricular activities, encouraging personal growth, leadership skills, and community involvement. The program aims to empower students with the knowledge, skills, and values needed to excel in their chosen field, become industry leaders, and make meaningful contributions to society.

Programme Outcomes (PO) for B.Com. Honours/ Honours with Research

Upon successful completion of this Programme, student will acquire the following insights/skills/abilities -

PO No.	PO
1	Knowledge of Business Concepts: Students will demonstrate a comprehensive understanding of fundamental business concepts, principles, theories, and practices across various areas such as accounting, finance, marketing, management, economics, and business law.
2	Analytical and Problem-Solving Skills: Students will develop strong analytical and critical thinking abilities to identify, analyse, and solve business problems using quantitative and qualitative techniques, data interpretation, and logical reasoning.
3	Communication and Interpersonal Skills: Students will be proficient in oral and written communication, enabling effective interaction in various business contexts. They will possess strong interpersonal skills to collaborate, negotiate, and work effectively in diverse teams.
4	Ethical Awareness and Social Responsibility: Students will recognize and understand the ethical implications of business decisions and demonstrate a commitment to ethical conduct, social responsibility, and sustainable business practices.
5	Global Business Perspective: Students will develop an awareness of the global business environment, including an understanding of international trade, crosscultural communication, and the impact of globalization on businesses. They will be prepared to work in a globalized economy.
6	Professional Development and Lifelong Learning: Students will exhibit a commitment to continuous learning and professional development, adaptability to changing business environments, and the ability to keep up with emerging trends and technologies in the field of commerce.

Programme Specific Outcome (PSO) for B. Com. Major in Accountancy and Costing:

Upon successful completion of this Programme, student will acquire the following insights/skills/abilities -

PSO No.	PSO
1	Financial Accounting Proficiency: Demonstrate a strong understanding of financial
	accounting principles, standards, and practices, including the preparation, analysis,
	and interpretation of financial statements.
2	Cost and Management Accounting Skills: Develop expertise in cost accounting
	techniques, budgeting, cost analysis, and decision-making to support effective
	management control and strategic planning.
3	Auditing and Assurance Competence: Acquire knowledge of auditing principles,
	techniques, and ethical standards, and apply them to assess and provide assurance on
	the reliability and integrity of financial information.
4	Taxation Knowledge: Understand the principles and regulations related to taxation
	and develop the ability to apply tax planning strategies and compliance requirements.
5	Accounting Information Systems Proficiency: Gain skills in the design,
	implementation, and utilization of accounting information systems, including the use
	of software applications for financial reporting and analysis.
6	Financial Management Awareness: Develop an understanding of financial
	management principles, including capital budgeting, investment decisions, working
	capital management, and financial risk analysis.

Programme Specific Outcome (PSO) for B. Com, Major in Business Management:

Upon successful completion of this Programme, student will acquire the following insights/skills/abilities -

PSO No.	PSO
1	Leadership and Team Management: Develop leadership skills and the ability to
	manage teams effectively, fostering collaboration, motivation, and effective
	communication.
2	Strategic Management Competence: Acquire knowledge of strategic management
	theories and frameworks, and apply them to analyse business environments,
	formulate strategies, and make strategic decisions.
3	Organizational Behaviour Understanding: Gain insights into individual and group
	behaviour within organizations, and develop skills in managing organizational
	culture, diversity, change, and conflict.
4	Marketing Management Proficiency: Understand marketing concepts and strategies,
	and apply them to develop marketing plans, conduct market research, segment target
	markets, and implement marketing campaigns.
5	Operations and Supply Chain Management: Acquire knowledge of operations
	management principles, including process design, quality management, inventory
	control, and supply chain optimization.
6	Entrepreneurship and Innovation: Foster an entrepreneurial mindset, and develop
	skills in identifying business opportunities, creating business plans, and managing
	innovation and creativity within organizations.

Exam Pattern

• Each theory and practical course of 4 credits will be of 100 marks comprising of 40 marks internal and 60 marks external examination. in case of courses of 2 credits, each theory and practical course will be of 50 marks comprising of 20 marks internal and 30 marks external examination

Rules of Continuous Internal Evaluation:

The Continuous Internal Evaluation for theory papers shall consist of two methods:

1. Continuous & Comprehensive Evaluation (CCE):

CCE will carry a maximum of 30% weightage (30/15 marks) of the total marks for a course. Before the start of the academic session in each semester, the subject teacher should choose any three assessment methods from the following list, with each method carrying 10/5 marks:

- i. Individual Assignments
- ii. Seminars/Classroom Presentations/Quizzes
- iii. Group Discussions/Class Discussion/Group Assignments
- iv. Case studies/Case lets
- v. Participatory & Industry-Integrated Learning/Field visits
- vi. Practical activities/Problem Solving Exercises
- vii. Participation in Seminars/Academic Events/Symposia, etc.
- viii. Mini Projects/Capstone Projects
- ix. Book review/Article review/Article preparation
- x. Any other academic activity

Each chosen CCE method shall be based on a particular unit of the syllabus, ensuring that three units of the syllabus are mapped to the CCEs.

2. Internal Assessment Tests (IAT):

IAT will carry a maximum of 10% weightage (10/5 marks) of the total marks for a course. IAT shall be conducted at the end of the semester and will assess the remaining unit of the syllabus that was not covered by the CCEs. The subject teacher is at liberty to decide which units are to be assessed using CCEs and which unit is to be assessed on the basis of IAT.

The overall weightage of Continuous Internal Evaluation (CCE + IAT) shall be 40% of the total marks for the course. The remaining 60% of the marks shall be allocated to the semester-end examinations.

The subject teachers shall communicate the chosen CCE methods and the corresponding syllabus units to the students at the beginning of the semester to ensure clarity and proper preparation. Proposed Question Paper Pattern for UG and PG Courses of Commerce & Management:

4 Credits Paper (Theory and Practical)

Business Automation and Presentation Tools-I

BCOM-SECAM-114(A) for Major in Accountancy and Costing

BCOM-SECAM-114(A) for Major in Business Management

Total Hours: 30 Credits:2

Course objectives Course outcomes	 Develop proficiency in Microsoft Word, Excel, and PowerPoint, formatting, data analysis, and presentation design. Acquire skills in integrating and automating workflows across Micros Suite applications for improved efficiency. Enhance collaboration and review capabilities in Microsoft Word while and managing templates for streamlined document creation. Design visually appealing and engaging presentations using Fincorporating slide transitions, animations, and effective delivery technically the end of the course the students will be better able — Master Microsoft Word, Excel, and PowerPoint by utilizing their formatting text, organizing documents, working with tables and graphic templates, and collaborating effectively. Apply Microsoft Excel for business automation by working with creating charts, analyzing data, implementing validation, and granderstanding of macros and automation. Design visually appealing presentations using PowerPoint by utilizations, selecting fonts and colors, creating content, applying transitanisms, and delivering engaging presentations. Integrate and automate workflows across Word, Excel, and PowerPoint 	oft Office e creating CowerPoint, ques features, s, creating formulas, aining an zing slide ations and
Unit	efficiency by utilizing mail merge, Topic Particular	Hours
Unit I	Introduction to Microsoft Word	7
	 Understanding the interface and basic features of Microsoft Word Formatting and styling text: fonts, sizes, colors and effects Document organization: paragraphs, headings, and bullet points Working with tables and graphics Creating and managing templates Collaboration and review features in Microsoft Word 	
Unit II	 Microsoft Excel for Business Automation Introduction to Microsoft Excel: interface, cells, and worksheets Working with formulas and functions: basic calculations, absolute and relative references Data visualization: creating charts and graphs Data analysis: sorting, filtering, and conditional formatting Data validation and protection Introduction to macros and automation in Excel 	8

Unit III	Effective Presentation Design with Microsoft PowerPoint	7
	Introduction to Microsoft PowerPoint: interface and slide layouts	
	 Designing visually appealing slides: fonts, colours, and backgrounds 	
	Creating and editing slide content: text, images, and multimedia	
	Slide transitions and animations	
	Adding speaker notes and comments	
	 Delivering engaging presentations: tips and techniques 	
Unit IV	Integration and Automation	8
	 Integrating Microsoft Word, Excel, and PowerPoint for efficient workflows 	
	Using mail merge to automate document creation	
	Embedding Excel charts and tables in PowerPoint	
	Automating repetitive tasks with macros	
	Creating interactive presentations with hyperlinks and action buttons	
	Customizing the Ribbon and Quick Access Toolbar

Practical on Business Automation and Presentation Tools- I

BCOM-SECAM-115(A) for Major in Accountancy and Costing

BCOM-SECAM-115(A) for Major in Business Management

Total Hours: 30 Credits: 1

Course objectives Course outcomes	 Master Microsoft Word, Excel, and PowerPoint for effective business con and presentations, including formatting, organization, tables, graphics, ten slide design. Apply Excel for business automation, utilizing formulas, charts, dat conditional formatting, and data protection. Enhance collaboration in Word, using track changes, comments, and c document editing. Integrate and automate workflows across Word, Excel, and PowerPoint, document creation, embedding charts, automating tasks with macros, a interactive presentations. After successful completion of this course, students are expected to Proficient Formatting and Styling: Students will acquire the ability to form text effectively, including selecting fonts, sizes, colours, and effects. The learn how to organize documents using paragraphs, headings, and bullet points to Data Organization and Visualization: Through working with tables an students will develop skills in creating well-structured tables, applying for table cells, and inserting and manipulating images or shapes. They will gain in presenting data visually for improved comprehension. Data Analysis and Visualization in Excel: By working with formulas, fur charts, students will enhance their ability to perform calculations, analys create visual representations such as line charts and bar graphs. They proficiency in sorting, filtering, and applying conditional formatting t important information. Engaging Presentation Design and Animation: Students will learn to cre appealing slides using appropriate layouts, fonts, colours, and backgrounds acquire skills in incorporating slide transitions and animations to create er dynamic presentations, capturing audience attention and conveying effectively. 	a analysis, ollaborative automating and creating at and style by will also tts. d graphics, ormatting to experience actions, and e data, and or will gain to highlight attentions and the control of the
	Practical	Hours
2.	 Formatting and Styling Text: Create a document with various paragraphs, headings, and bullet points. Apply different fonts, sizes, colors, and effects to the text. Experiment with formatting options like bold, italic, underline, and highlight. Working with Tables and Graphics: Create a table to organize data and apply formatting to the table cells. Insert and format graphics such as images or shapes in the document. Explore advanced features like resizing, wrapping text around images, and aligning objects. 	30

3.	Working with Formulas and Functions:	
	 Create a basic budget spreadsheet with income and expense columns. 	
	 Use formulas to calculate totals, percentages, and averages. 	
	 Apply functions like SUM, AVERAGE, MAX, and MIN to analyze data. 	
4.	Data Visualization and Analysis:	
	 Create a line chart or bar graph to visualize sales data. 	
	 Sort and filter data based on specific criteria. 	
	Apply conditional formatting to highlight specific data points or trends	
5.	Creating Visually Appealing Slides:	
	 Design a presentation slide deck with appropriate slide layouts. 	
	• Choose visually appealing fonts, colors, and backgrounds for the slides.	
	 Apply consistent formatting and alignment to maintain a professional 	1
	look.	
6.	Slide Transitions and Animations:	
	 Add slide transitions to create smooth transitions between slides. 	
	 Apply animations to text or objects to bring them in or out of the slide. 	
	• Experiment with timing and sequencing of animations for emphasis and	
	engagement.	
7.	Mail Merge and Document Automation:	
	Use mail merge to create personalized letters or envelopes with a data	
	source.	1
	 Customize the merge fields and format the resulting documents. 	1
	Automate the process by running the mail merge with different data sets.	<u> </u>
8.	Embedding Excel Data and Automating Tasks:	I
	 Create an Excel chart or table and embed it into a PowerPoint 	1
	presentation.	
	Use macros to automate repetitive tasks such as formatting or data	
	manipulation.	
	Create interactive presentations with hyperlinks and action buttons to
