B.Com. Honours / Honours with Research

Under Choice Based Credit System (CBCS) and as per NEP-2020 Guidelines

SY.B.Com (W.E.F 2025-26)

[w.e.f. Academic Year: 2025-26]

Preface

The Bachelor of Commerce (B. Com) program equips students with essential knowledge and skills in Accountancy and Costing as well as Business Management. Aligned with the National Education Policy (NEP), this program fosters holistic development and nurtures intellectual growth. In today's dynamic global economy, there is a growing demand for skilled professionals in Accountancy, Costing, and Business Management. The B. Com program offers specialized majors in these fields, allowing students to choose their desired path based on their interests and aspirations.

The Accountancy and Costing major provides a comprehensive understanding of financial reporting, auditing, taxation, and cost accounting. Students develop skills to analyse financial statements and make informed decisions, while efficiently managing costs, budgets, and pricing strategies.

The Business Management major focuses on strategic planning, organizational behaviour, marketing, human resource management, and entrepreneurship. Students gain knowledge and skills to navigate the business world, lead teams, make sound managerial decisions, and adapt to changing market dynamics.

The B. Com program combines theoretical foundations with practical applications, fostering critical thinking, problem-solving, effective communication, and ethical decision-making. Students engage in real-world case studies, projects, industry visits, and internships, gaining valuable experiential learning opportunities. A supportive and inclusive learning environment promotes student participation in co-curricular and extra-curricular activities, encouraging personal growth, leadership skills, and community involvement. The program aims to empower students with the knowledge, skills, and values needed to excel in their chosen field, become industry leaders, and make meaningful contributions to society.

Programme Outcomes (PO) for B.Com. Honours/ Honours with Research

Upon successful completion of this Programme, student will acquire the following insights/skills/abilities -

PO No.	PO
1	Knowledge of Business Concepts: Students will demonstrate a comprehensive understanding of fundamental business concepts, principles, theories, and practices across various areas such as accounting, finance, marketing, management, economics, and business law.
2	Analytical and Problem-Solving Skills: Students will develop strong analytical and critical thinking abilities to identify, analyse, and solve business problems using quantitative and qualitative techniques, data interpretation, and logical reasoning.
3	Communication and Interpersonal Skills: Students will be proficient in oral and written communication, enabling effective interaction in various business contexts. They will possess strong interpersonal skills to collaborate, negotiate, and work effectively in diverse teams.
4	Ethical Awareness and Social Responsibility: Students will recognize and understand the ethical implications of business decisions and demonstrate a commitment to ethical conduct, social responsibility, and sustainable business practices.
5	Global Business Perspective: Students will develop an awareness of the global business environment, including an understanding of international trade, cross-cultural communication, and the impact of globalization on businesses. They will be prepared to work in a globalized economy.
6	Professional Development and Lifelong Learning: Students will exhibit a commitment to continuous learning and professional development, adaptability to changing business environments, and the ability to keep up with emerging trends and technologies in the field of commerce.

Programme Specific Outcome (PSO) for B.Com. Major in Accountancy and Costing:

Upon successful completion of this Programme, student will acquire the following insights/skills/abilities -

PSO No.	PSO							
1	Financial Accounting Proficiency: Demonstrate a strong understanding of financial							
	accounting principles, standards, and practices, including the preparation, analysis,							
	and interpretation of financial statements.							
2	Cost and Management Accounting Skills: Develop expertise in cost accounting							
	techniques, budgeting, cost analysis, and decision-making to support effective							
	management control and strategic planning.							
3	Auditing and Assurance Competence: Acquire knowledge of auditing principles,							
	techniques, and ethical standards, and apply them to assess and provide assurance on							
	the reliability and integrity of financial information.							
4	Taxation Knowledge: Understand the principles and regulations related to taxation							
	and develop the ability to apply tax planning strategies and compliance requirements.							
5	Accounting Information Systems Proficiency: Gain skills in the design,							
	implementation, and utilization of accounting information systems, including the use							
	of software applications for financial reporting and analysis.							
6	Financial Management Awareness: Develop an understanding of financial							
	management principles, including capital budgeting, investment decisions, working							
	capital management, and financial risk analysis.							

Programme Specific Outcome (PSO) for B. Com, Major in Business Management:

Upon successful completion of this Programme, student will acquire the following insights/skills/abilities -

PSO No.	PSO
1	Leadership and Team Management: Develop leadership skills and the ability to
	manage teams effectively, fostering collaboration, motivation, and effective
	communication.
2	Strategic Management Competence: Acquire knowledge of strategic management
	theories and frameworks, and apply them to analyse business environments,
	formulate strategies, and make strategic decisions.
3	Organizational Behaviour Understanding: Gain insights into individual and group
	behaviour within organizations, and develop skills in managing organizational
	culture, diversity, change, and conflict.
4	Marketing Management Proficiency: Understand marketing concepts and strategies,
	and apply them to develop marketing plans, conduct market research, segment target
	markets, and implement marketing campaigns.
5	Operations and Supply Chain Management: Acquire knowledge of operations
	management principles, including process design, quality management, inventory
	control, and supply chain optimization.
6	Entrepreneurship and Innovation: Foster an entrepreneurial mindset, and develop
	skills in identifying business opportunities, creating business plans, and managing
	innovation and creativity within organizations.

S. Y. B. Com Structure and Syllabus

Students should note the following regulations governing the selection of Major and Minor subjects for the S.Y. B.Com. programme:

- 1. Each candidate shall elect one Major and one Minor from the options listed below.
- 2. The Major and the Minor must be distinct disciplines; duplication of subject choice is strictly prohibited. For instance, a student opting for "Accountancy & Costing" as a Major may not elect "Accountancy & Costing" as a Minor.
- 3. Selections, once finalized and duly registered, shall be binding for the duration of the **B.Com.** programme and are not subject to subsequent alteration.
- 4. All candidates are advised to deliberate their choices in accordance with their academic interests and professional aspirations.

Permissible Major Disciplines

- Accountancy & Costing
- Business Management
- Finance & Banking

Permissible Minor Disciplines

- Accountancy & Costing
- Business Management
- Finance & Banking

Should any clarification be required, students are directed to consult the Office of the Dean, Faculty of Commerce and Management, prior to admission.

Exam Pattern

• Each theory and practical course of 4 credits will be of 100 marks comprising of 40 marks internal and 60 marks external examination. in case of courses of 2 credits, each theory and practical course will be of 50 marks comprising of 20 marks internal and 30 marks external examination

Rules of Continuous Internal Evaluation:

The Continuous Internal Evaluation for theory papers shall consist of two methods:

1. Continuous & Comprehensive Evaluation (CCE):

CCE will carry a maximum of 30% weightage (30/15 marks) of the total marks for a course. Before the start of the academic session in each semester, the subject teacher should choose any three assessment methods from the following list, with each method carrying 10/5 marks:

- i. Individual Assignments
- ii. Seminars/Classroom Presentations/Quizzes
- iii. Group Discussions/Class Discussion/Group Assignments
- iv. Case studies/Case lets
- v. Participatory & Industry-Integrated Learning/Field visits
- vi. Practical activities/Problem Solving Exercises
- vii. Participation in Seminars/Academic Events/Symposia, etc.
- viii. Mini Projects/Capstone Projects
- ix. Book review/Article review/Article preparation
- x. Any other academic activity

Each chosen CCE method shall be based on a particular unit of the syllabus, ensuring that three units of the syllabus are mapped to the CCEs.

2. Internal Assessment Tests (IAT):

IAT will carry a maximum of 10% weightage (10/5 marks) of the total marks for a course. IAT shall be conducted at the end of the semester and will assess the remaining unit of the syllabus that was not covered by the CCEs. The subject teacher is at liberty to decide which units are to be assessed using CCEs and which unit is to be assessed on the basis of IAT.

The overall weightage of Continuous Internal Evaluation (CCE + IAT) shall be 40% of the total marks for the course. The remaining 60% of the marks shall be allocated to the semester-end examinations.

The subject teachers shall communicate the chosen CCE methods and the corresponding syllabus units to the students at the beginning of the semester to ensure clarity and proper preparation.

Proposed Question Paper Pattern for UG and PG Courses of Commerce & Management:

4 Credits Paper (Theory and Practical)

Marks 60 Time: 3 Hours

Q1	Long Answer Question (Compulsory)	12

- (a) Theory questions will carry 40% marks.
- (b) Practical problems will carry 60% marks.

BCOM-DSCA-232 / BCOM-MINA-232

Costing - I

	Costing - 1	
Cotal Hours: 3	30	Credits
Course	To explain the meaning and significance of labour costing	, including
Objectives	methods of labour remuneration and incentive schemes.	
	To classify and analyse overheads based on functional, behave	ioural, and
	element-wise classifications.	
	• To apply techniques of overhead allocation, apportion	ment, and
	absorption in cost accounting.	
	To compute and evaluate overhead recovery rates using m	ethods like
	machine hour rate, labour hour rate, and direct labour basis.	
Course	By the end of the course the students will be able to-	
Outcomes	Calculate Labour costs using various remuneration methods	s, including
	time rate, piece rate, and incentive plans.	
	Classify overheads into appropriate categories and j	ustify the
	classification based on given cost items.	
	Allocate and apportion factory overheads systematically a	nd identif
	issues of under-absorption and over-absorption.	
	Compute accurate overhead recovery rates and apply the	em in cos
	calculations for manufacturing operations.	
Medium of	English	
Instruction:		
	Topic	Hours
UNIT-I	Labour Costing	08
	Meaning and Importance of Labour in Industry	
	Labour Time Recording: Time Keeping & Time Booking	
	Meaning of Labour Remuneration, Incentives and Bonus	
	Methods of Labour remuneration	
	• Time Rate, Piece Rate & Differential Piece Rate (Simple	
	Practical Problems)	
	Halsey Plan and Rowan Plan. (Simple Practical Problems)	
UNIT-II	Overheads control	07
	Meaning and Definition of Overheads	
	Collection of overheads and Classification of Overheads -	
	 Functional Classification, 	
	 Behavioural Classification, 	
	o Element-wise Classification.	
	Practical problems on classification of given items into the	
	classes of overheads by applying the bases stated above.	
UNIT-III	Overhead Distribution - II:	07
	Procedure of Allocation and Apportionment of factory	
	Overheads.	
	Primary and Secondary Distribution of overheads	

	Absorption of Factory Overheads – Under-absorption and over absorption of overheads	
	over-absorption of overheads.	
	Practical problems on allocation and apportionment of factory	
	Overheads.	
UNIT-IV	Overhead Distribution – III:	08
	Computation of rate of recovery absorption of overheads-	
	Machine our rate, Labour hour rate and Direct Labour basis.	
	Practical problems on computation of the rate of overheads.	
	- Tractical problems on computation of the rate of overheads.

BCOM-MINF-231 MACROECONOMICS – I

Total Hours: 60 Credits: 4

Course	• This course is designed to introduce students to the basic building	blocks of
objectives	Macroeconomics, which will serve as a foundation throughout their	careers.
	This course aims to provide students with knowledge of the basic	concepts
	of Macroeconomics.	
	The course will provide knowledge about the demand for money, su	ipply of
	money, value of money and National Income.	
Course	After successful completion of this course, students are expected to:	;
outcomes	Understand the basic foundations of Macroeconomics.	
	Learn about the concept of Macroeconomics.	
	Provide students with information about the theories of output and	
	employment, the consumption function, and the investment function	1.
	Understand the demand for money, supply of money, and National 3	Income.
Unit	Topic / Particular	Hours
I	Introduction to Macro Economics and National Income	
	1.1 Meaning, definition, nature & scope of Macro Economics	
	1.2 Importance and limitations of Macro Economics	
	1.3 Concepts and variables of Macro Economics	
	1.4 Transition from Micro Economics to Macro Economics	
	1.5 Paradoxes of Macro Economics	15
	1.6 Meaning and Definitions of National Income, GDP, GNP, NNP,	
	NDP, Per capita Income, Personal and disposable income.	
	1.7. Methods and difficulties in measurement of National Income	
	1.8 Circular flow of National Income	
	1.9 Importance of National Income analysis	
II	Theories of Output and Employment	
	2.1 Say's law of market	
	2.2 Keynesian theory of employment	
	2.3 Principle of effective demand	15
	2.4 Full employment and unemployment equilibrium	
	2.5 Aggregate demand and supply function	
	2.7 Inflationary and deflationary gap	
	·	

III	Consumption and Investment Function	
	3.1 Meaning and definition of consumption function	
	3.2 Importance and determinants of consumption function	
	3.3 Keynesian psychological law of consumption	
	3.4 Concepts of APC, MPC, APS and MPS	15
	3.5 Short and long run consumption function	13
	3.6 Investment: Meaning and Types of investment: Gross and Net	
	investment, Autonomous and Induced Investment	
	3.7 The Neo-Classical theory of Investment	
	3.8 Investment multiplier& Acceleration	
IV	Rate of Interest	
	4.1 Meaning and definition of Interest rate	
	4.2 Classical theory of interest	
	4.3 Marginal Efficiency of capital (MEC)	15
	4.4 Capital Accumulation	
	4.5 Neo-Classical theory of interest	
	4.6 Keynesian theory of interest

Business Automation and Presentation Tools-I

Total Hours	:: 30	Credits
Course	Develop proficiency in Microsoft Word, Excel, and Power	erPoint,
objectives	including formatting, data analysis, and presentation design.	
	Acquire skills in integrating and automating workflows	across
	Microsoft Office Suite applications for improved efficiency.	
	Enhance collaboration and review capabilities in Microsoft Wor	d while
	creating and managing templates for streamlined document creat	ion.
	Design visually appealing and engaging presentations using Pow	erPoint,
	incorporating slide transitions, animations, and effective	delivery
	techniques	
Course	By the end of the course the students will be better able –	
outcomes	Master Microsoft Word, Excel, and PowerPoint by utilizin	g their
	features, formatting text, organizing documents, working with	tables
	and graphics, creating templates, and collaborating effectively.	
	Apply Microsoft Excel for business automation by working	g with
	formulas, creating charts, analysing data, implementing validati	on, and
	gaining an understanding of macros and automation.	
	Design visually appealing presentations using PowerPoint by u	tilizing
	slide layouts, selecting fonts and colours, creating content, a	pplying
	transitions and animations, and delivering engaging presentations	S.
	Integrate and automate workflows across Word, Excel, and Pov	werPoint
	to enhance efficiency by utilizing mail merge,	
Unit	Topic Particular	Hours
Unit I	Introduction to Microsoft Word	7
	Understanding the interface and basic features of Microsoft	
	Word	
	Formatting and styling text: fonts, sizes, colors and effects	
	Document organization: paragraphs, headings, and bullet	
	points	
	Working with tables and graphics	
	Creating and managing templates	
	i	

Unit II	Microsoft Excel for Business Automation	8
	• Introduction to Microsoft Excel: interface, cells, and	
	worksheets	
	Working with formulas and functions: basic calculations,	
	absolute and relative references	
	Data visualization: creating charts and graphs	
	Data analysis: sorting, filtering, and conditional formatting	
	Data validation and protection	
	Introduction to macros and automation in Excel	
Unit III	Effective Presentation Design with Microsoft PowerPoint	7
	Introduction to Microsoft PowerPoint: interface and slide	
	layouts	
	• Designing visually appealing slides: fonts, colours, and	
	backgrounds	
	• Creating and editing slide content: text, images, and	
	multimedia	
	Slide transitions and animations	
	Adding speaker notes and comments	
	Delivering engaging presentations: tips and techniques	
Unit IV	Integration and Automation	8
	Integrating Microsoft Word, Excel, and PowerPoint for	
	efficient workflows	
	Using mail merge to automate document creation	
	Embedding Excel charts and tables in PowerPoint	
	Automating repetitive tasks with macros	
	Creating interactive presentations with hyperlinks and action	
	buttons	
	Customizing the Ribbon and Quick Access Toolbar
